The following Comments were made subsequent to the meeting: I offer these comments with the deepest respect. As a recent member I want to express my disappointment with the "replacement speaker" at today's meeting (July 31). I don't think it's appropriate to share personal medical and burial information with anyone but personal friends and family. I really found the whole episode offensive. I'd appreciate it if more thought would be given to such ad hoc presentations in the future. Thank you and best regards.Stoney Kudel
