April Meetings

Thurs. April 2nd. MEETING IS CANCELLED

To Our Members,

Royal City Men's Club Cancellations Related to COVID-19

The Trinity United Church executive has announced the closure of the church to public events until at least the 28th of March when they will review the situation. We support this decision.

In view of this and in line with guidelines from the government and public health professionals, Royal City Men's Club is regrettably cancelling all lectures, activities and coffee club get-togethers until further notice. We anticipate this could be from a few weeks to a few months.

Your RCMC Board is working to consider the many variables involved including when it will be safe to restart lectures based on advice from the government and healthcare professionals.

We thank you for your understanding and patience during this uncertain and stressful time. We will continue to communicate via this mailing list and on our website to keep you well informed. There is already some additional information on the website.

In the meantime, your health is of primary importance and we encourage everyone to follow the advice of the government and health professionals.

On behalf of your Board
Julian Sale
President

Thurs. April 16th. Mike Payne - “Experiences as a Small Plane Salesman” **MEETING IS CANCELLED**

Presentation Description:

Mike will speak about the sales and demonstration (flying) of the various aircraft that I have sold, with some stories of the flights with those aircraft. I will start with the Cessna piston aircraft (152, Skyhawk...) progress to the floatplanes. I will change to Zlin Aerospace and the sale of aerobatic aircraft. Then to Diamond Katana and the SuperKatana motor glider. Here I plan to talk a little about repo of delinquent aircraft, soaring and glider towing (I have a glider tow rating). I'll throw in a little about mountain flying, aerobatics and the skill of flying low. Then I can talk about the sale of corporate jets.

Bio:

Mike Payne is an aircraft salesman.

Mike has 40 years of dedicated operations and marketing work in the aviation industry. Mike is no stranger to the specialized support the industry requires. Mike has been the driving force with several noted firms including Cessna (Piston and Caravan), Diamond Aircraft, Exequire (Cessna Citation) and as the Canadian Sales Manager for Embraer Executive Aircraft.

Mike Payne is the retired President of AvMine Technical - the exclusive representative of Air Maestro Software Application for North America. We provided safety auditing, management of risk factors in aircraft operations and safety with Air Maestro safety management software. The firm also provided aircraft appraisals, flight ops consultation services and aircraft acquisition and sale.

Believing in giving back to the aviation community, Mike was the regional Chair of the Canadian Business Aviation Association's (CBAA) Ontario Chapter (2002-2012). He also helped lead the volunteer organization of three of the association's annual Trade Show and Conference when held in the Toronto region.

In addition to his qualifications as a pilot (seaplane and glider) Mike is a post secondary graduate from York University and Ryerson University. He is past faculty member of Toronto based Humber College where he instructed marketing in aviation.
